

## City of Hallandale Beach Certification of Drainage Maintenance

In accordance with Chapter 14, Article II, Section 14-46, Hallandale Beach City Code, the City of Hallandale Beach requires that owners of all stormwater management facilities submit to the City by September 1 of each year a Certification of Drainage Maintenance. For all developments completed after August 2006, an engineer is required to complete the certification.

Please complete and sign the following certification. Initial each item to affirm its maintenance. Mark "N/A" if any of the items are not applicable.

\_\_\_\_\_ The grass in swales and adjacent to ponds was mowed at least once a month during the months since March.

\_\_\_\_\_ We have inspected the culverts and there are no obstructions.

\_\_\_\_\_ We have inspected the following drainage areas and there are no obstructions.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

\_\_\_\_\_ We have inspected the stormdrains this year and cleaned them as needed.

\_\_\_\_\_ We certify that no dirt or fill has been used to reduce the depth or alter the shape of drainage areas, including swales, drainage basins and ponds.
